Tour program

DAY 1.

We meet you and have **Breakfast** in one of the cozy cafes of the city. After **Breakfast** we go to the place of our start. During the General briefing, our guides will tell you the basic rules and theory of snowmobile control. Mandatory safety instruction, selection of equipment, practical training and you can hit the road! Starting from the embankment of the city of Petrozavodsk and here is our route: the city of Petrozavodsk-Nikolsky Strait-Big

Lelekovsky island. On the shore of the southern part of the island we set up a camp. After lunch in the field (hot soup, sandwiches, tea, coffee) we make an evening departure for trial fishing to the Islands of Garnitsky and Berezovets. After successful fishing back to the base camp, where we will have dinner in the chum (marinated in spices meat on fire with grilled vegetables, stewed rice with seasonings, hot cakes, tea or coffee). Summing up the results of fishing and overnight in chum.

DAY 2.

Today we have an early Breakfast for those who want to go fishing on the dawn. By 12.00 we return to the base camp, where we will have a field lunch. After a delicious lunch we gather our base camp. We leave on the route: The Big Lelikovsky island – Isle of man – the village of Sennaya Guba village of Korba – the island of Kizhi, where you will stay in a guest house. After accommodation, we go on a sightseeing tour of Kizhi island and return to the guest house. Here we will have a bathhouse and a delicious dinner

DAY 3.

After a hearty and hot Breakfast (early Breakfast is possible for the most avid fishermen to have time to update the most fishing places (from 6 to 9 am)) we have to go back on the lake Onega, past the most beautiful Islands. Arriving at the hotel, where you can take a hot shower, change clothes and go for a farewell dinner in the first restaurant of Karelian cuisine "Karelian Gornitsa", where we can sum up the fishing. After dinner, we go to the railway station of Petrozavodsk.

The route can be adjusted by the instructor due to changes in weather conditions and the level of the group
