

Russia for kids. Family tour.

7 days / 6 nights

Day – 1 Moscow

Arrival in **Moscow**.

Meeting with the guide and driver at the airport.

Explore Russian capital during the City Tour of Moscow. Visit **Red Square**, lined by Moscow's landmark buildings. At one end rises the onion-shaped domes of **St. Basil's Cathedral**, in front of the Kremlin stands **Lenin's Mausoleum**, while on the opposite side, the grand **GUM** department store offers a variety of glamorous goods. We will drive along the main streets and explore the main Moscow sights. You will get acquainted with the history of the capital and can see the city from different angles. We will also visit the **Sparrow Hills** - the largest observation platform in Moscow and see the magnificent building of Moscow University.

Visit **Panorama 360** – the highest observation deck in Europe on the 89th floor with unlimited residence time. We will take a high-speed elevator at a speed of 8 m / s in just 52 seconds. Here is the **real ice cream factory** "Clean Line" and the whole process of production is visible. And you can eat as much as you want for free!

Transfer to the hotel and check in.

Free time.

Overnight in hotel

Day – 2 Moscow

Breakfast in the hotel.

Meeting with the guide.

Visiting the **Cosmonautics Museum**, we will get acquainted with the history of Soviet and Russian cosmonautics, Konstantin Eduardovich Tsiolkovsky's projects to realize the human dream of space travel. We learn more about the designer Sergey Pavlovich Korolev - the founder of practical cosmonautics, will see models of the first artificial Earth satellites.

The first manned flight into space, flights of spacecraft to the moon and planets of the solar system, triumphal victories and grandiose accomplishments, long-term orbital stations, international cooperation in space, cosmodromes and launch vehicles in our time - all this and much more in the Cosmonautics Museum of Moscow.

Free time for lunch.

Visit to **The Center for Oceanography and Marine Biology Moskvarium.**

It is an oceanarium located in the territory of the VDNJ of Moscow. The oceanarium has been built in the field of reconstruction works of the exhibition of the achievements of the national economy in 2014. The complex was inaugurated on August 5, 2015 by the mayor of the Russian capital Sergei Sobyenin and the President of the Russian Federation Vladimir Putin. With 53,000 m², the Moskvarium is the largest oceanarium in Europe.

Overnight in hotel

Day – 4 Moscow - St. Petersburg

Breakfast in the hotel. Check out at the hotel.
Meeting with the guide. Transfer to the railway station.
Take **SAPSAN high speed train** to St. Petersburg (4 hours ride).

Arrival in **St. Petersburg**. Meeting with the guide and driver.

During a **sightseeing tour of St. Petersburg**, we will get a great opportunity to get acquainted with the historical center of the city in a short time, to see the most famous squares of the city: St. Isaac's Square, Palace Square, Senate Square, etc. We will pass along Nevsky Prospect and other central streets, admire the unique architectural ensembles and monuments (Palace Bridge, Hermitage, Kazan Cathedral, Church of the Savior on Spilled Blood), see the beautiful Neva with a view of the Peter and Paul Cathedral and the Peter and Paul Fortress, see the Spit of Vasilyevsky Island, The Bronze Horseman, Kunstkamera and much more.

We will visit the **Peter and Paul Fortress** - a unique monument of history, architecture and fortification art of the 18th-20th centuries. The dominant architectural ensemble – the Peter and Paul Cathedral, is one of the symbols of St. Petersburg, the tomb of the Imperial House of Romanov.

Transfer to the hotel and check in.

Free time.

Overnight in hotel

Day – 5 St. Petersburg

Breakfast in the hotel.
Meeting with the guide.

Interactive excursion “Feel yourself a Firefighter”.

We will meet with the real fire fighters, who will gladly introduce us to the structure of the fire departments of St. Petersburg, fire engines, the training ground of the Ministry of Emergency Situations and the most heroic profession - the Fireman.

Children could:

- sit behind the wheel of a real fire truck;
- see how a fire extinguisher works in practice;
- explore what equipment firefighters use to fight with the fire and smoke and to save people;
- we will visit the plane, sit at the helm;
- see the ship, train and helicopter;

- try on helmets and uniforms of firefighters;
- This excursion is a great possibility to get new knowledge:
- how and where alarm calls are received;
- what is the speed of response and features of the departure of firefighters to an alarm;
- what are the standards for the speed of putting on uniform clothing;
- we will find out what safety rules should be taken into account when using pyrotechnics, sparklers, garlands and what to do if something goes wrong;

*If the weather is bad outside, in order to warm up and take a break, the program includes a visit to a classroom and watching a short film about the work of the Ministry of Emergencies.

Free time for lunch.

Excursion to the Water Museum.

"The Universe of Water" (multimedia exhibition in the premises of the former underground reservoir of clean water of the Main Waterworks). Everything here is about water. Water as the greatest mystery. Water is like medicine. Water as a destroyer. Water as a standard. Water is like music. Multimedia technologies and effects combined with hands-on exhibits. The space surrounding visitors is changeable, as the water itself is changeable: sounds, video sequences, light moods change.

Return to the hotel.

Free time.

Overnight in hotel

Day – 6 St. Petersburg

Breakfast in the hotel.

Meeting with the guide.

Excursion to Russian railway museum.

Museum complex is Russia's main railway museum and is among the world's largest railway museums. We opened on October 30, 2017.

The museum complex is spread over a vast area. It has two buildings — an old locomotive depot building and an eye-catching modern building. The buildings are connected with a suspension bridge to make a single structure.

Museum tours include visiting a collection of rare and legendary steam trains, locomotives, electric locomotives, railcars and other rolling stock.

This museum is a venue where adults and children alike will gain a lot of knowledge about the history of railways and rail transport, railway jobs, modern and outdated technologies, and, at the same time, we trust the museum will become an inviting amusement park and a favorite attraction for the whole family.

Free time for lunch.

Today we will visit the **Grand Maket Russia** – a private museum in St. Petersburg. It is a model made on a scale of 1:87, with an area of 800 m², where the collective images of the regions of the Russian Federation are combined. It is the largest layout in Russia and the second largest in the world.

Return to the hotel.
